6 Hurt In 2 Crashes  
Today; Injury Toll  
For Weekend Is 12

The Quad-Cities' 1962 traffic fatality of 1962 resulted from a head-on crash on Route 67a Thursday night, and three persons were hurt in an accident occurring early today only a few hundred feet from the same point.

Another three-injury mishap occurred today as the injury toll rose to 12. There were 11 accidents in the Quad-City area during the weekend.

Joseph Edward Hansen, 37, of Jerseyville, an A. O. Smith Corp. welder, was killed instantly Thursday night in a head-on truck-car collision on Highway 67a two miles north of U. S. Bypass 66-40. He was the father of eight children.

The truck driver, Albert Vallo, 34, of St. Louis, who suffered minor injuries, told Illinois state police that the driver of the car, a 1961 Ford, was driving north when the accident occurred about 10:10 p.m., according to police records.

Hansen was pronounced dead on the scene by Deputy Coroner John Sedlack. He died of a crushed skull.

## Lee Shops To Close; Libson Firm Leases Bldg.

Katz Brothers To Open Realty Office; Libson To Start In September

Over three decades of serving the community will end late this summer for the local Lee Shops store, where a going-out-of-business sale is to start Thursday to sell all merchandise before the present lease expires on Aug. 1. The lease is being taken over by Libson Shops, Inc., of St. Louis.

Sidney Katz, president of Lee Shops, Inc., told the Press-Tribune he and his brother, Milton, vice-president and secretary of the firm, are going to start a new apparel shop, but he is planning to leave the business, but will remain here as a consultant.

The Lee Shops, founded by their mother, the late Lena Katz, originated in Wood River 32 years ago, and a year later, in 1931, a store was opened in Granite City where the Hub Drug store now is located.

11 Shops In Chain

Mrs. Katz ran the shop at the rear of her husband's shoe store. Six months later the Lee Shops opened at its present location, 19th street and Edison avenue, and was the headquarters and main office for a chain of stores that grew to 11. Mrs. Katz died a year ago.

In recent years, the number of stores was decreased. Libson Shops, Inc., leased the locations in Belleville, Edwardsville and Collinsville, and also a long-term lease with Morris Realty Co. for the local store.

Libson Shops Inc., president of Lee Shops, said extensive remodeling both inside and outside is planned for the open it as a Libson Shop early next year. The Libson firm currently operates 24 stores in Illinois, Missouri and Iowa, and the local store will be the 25th.

"We'll have much more to say about our plans in the very near future, but all of the details aren't available now," he said.

The local Lee Shops, with 15 employees, not only served as the main office, but also was the headquarters for the chain. For the past year, the details of the chain have been given to the Libson firm.

Water Rate Hearing To Continue June 27

(Special From Springfield)

After hearing technical data on conditions of underground water pipes for two days, the Illinois Commerce Commission canceled the third day's setting and announced further hearings would be held for June 27, 28 and 29 on the petition of East St. Louis & Interurban Water Co. for a rate raise.

The company's request for an increase of about \$1,485,000 annually in its rates, an average of 32.7%, is being opposed by local communities and large water user groups.

## C. Of C. Membership Drive Starts Tuesday

A drive to enroll new members in the Tri-Cities Chamber of Commerce begins Tuesday at 8 a.m. with a kickoff breakfast at the YMCA auditorium.

Twelve teams of six men each will call on about 360 area business and professional men, women and children for a window breakfast Thursday at 8 a.m. at the Tri-Cities Chamber of Commerce.

R. L. Toburen, membership drive chairman, will outline a plan of membership and explain drive procedures to the team captains.

Harian Dobry, C. of C. secretary, will describe community services and John McBride, past president, will make a forceful appeal for membership.

Material sent to prospective members includes a pamphlet outlining C. of C. activities, a list of community facilities and other community improvements, Toburen pointed out in advance letters to prospective members. "None of these activities was an accident of time or place. Each had to be sought for, planned for and paid for."

Where did all this planning and activity come from? From independent businessmen working together. Individually they could account for very little, but collectively they make a force which can be reckoned with.

Complaining of feeling ill with asthma, Howard S. Hays, 54, told his family yesterday afternoon he was going outside for fresh air, and a short time later was found floating in Chouteau Slough, across the road from his home, about 2 p.m.

It is believed he was seated on a tree stump at the water's edge when he suffered an attack and fell into the water. He was discovered by a group of unidentified youngsters who notified his wife, Grace.

Mrs. Hays ran outside and pulled her husband to the bank of the slough, and an ambulance was summoned. He was dead on arrival at St. Elizabeth Hospital.

Arnold Pratt, 27, unemployed Venice driver, charged with shooting a Mitchell truck driver to death in his truck March 20 submitted a guilty plea today to voluntary manslaughter and was sentenced to a prison term of 14 to 18 years.

The sentence was set by Circuit Judge Joseph J. Barr at the conclusion of the trial in the Mitchell truck driver's death.

A former professional boxer Pratt admitted to Madison police March 23 that he killed Donnie G. Gozila, 33, who had hit him in the truck cab from Mr. Gozila in Eagle Park Acres, and fired a revolver into the driver's right arm and chest as the moving vehicle reached Washington avenue and Race street.

## Worthen Named GC School Treasurer

School Treasurer appointed by the Granite City school board Thursday night, Leslie Monroe Worthen, a member of the school board for the past two years, will serve as treasurer without pay in 1962-63.

The Citizens' Sewer and Drainage Committee is requesting a late September referendum to give ample time for airing all viewpoints and because many Granite Cityans will be away vacationing during the summer.

At a meeting of council chairman last week, dates of mid-July and early August were proposed, with Alderman Walter Gozila, chief opponent of the pollution-drainage program, calling for the early date.

The council also is to consider a treasurer's report with a letter from Comptroller J. H. Dooler pointing out the city already has issued one \$100,000 anticipation warrant for the first in nearly two decades, and has the borrowed funds for June operating costs.

The agenda lists the receipt of a bid from the city of Madison for Granite City's sanitation truck, and a request from the Downtown Granite City Shopping Center for permission to place barbecue grills on sidewalks for the June 30 cook-out contest, and a portion of 19th street for a "gaslight" promotion in July and for the annual sidewalk sale in August.

City Atty. John Gilchrist said he will submit a report on traffic controls requested during recent sessions, and there will be regular committee and officer reports.

## Sewer Bond Vote Date May Be Decided Tonight

## Funds In Trust Bank

The board designated the Granite City Trust and Savings Bank as the depository for school funds from July 1, 1962, to June 30, 1964, and specified that the bank should be the "first" Granite City National Bank to hold the depository on July 1, 1964, with rotation between the two continuing every two years.

The resolution adopted states that the board was establishing a system of rotation between the two banks to insure that each bank receives satisfactory service to the school district when the bank has been operating tax anticipation warrants alternately from the two banks.

No discussion was held on the third bank in the school district, the American National Bank, which has been operating since that it is closely associated with the Trust and Savings Bank, and officials participated in establishing it.

## Worthen Named GC School Treasurer

Non-Salaried Post; Rotate Funds Between 2 Banks Every 2 Years

Setting a precedent in this area, the Granite City school board Thursday night created a non-salaried position of school treasurer. Monroe Worthen, a member of the school board, was named treasurer for the 1962-63 year.

The state law eliminating the township school treasurer-trust system after this month provides that a school board member can be named to a one-year treasurer term without pay, or that a non-member can be appointed for two years at a salary set by the board.

Serving on the school district board is the administrative and financial officer of the school board, with a belief that the duties will be handled by the administrative and financial officer.

## Plan Commission Hears 9 Petitions

Recommendations of the City Planning Commission are expected to go to the Granite City council tonight. The commission met Thursday afternoon, and considered nine petitions for rezoning.

Three petitions were from the Henry Ross Construction Co., including one for R-5 multiple unit residential zoning of land in Nantekki township adjacent to Shamrock Gardens. The city has zoning jurisdiction on land within a mile and a half of the city lines. The area now is classified as R-2 which permits single-dwelling houses. The company wants to build eight-family apartment units.

A second petition for rezoning from R-1 to R-5, a tract in the city adjacent to property in the first petition. He received approval for R-4 zoning which would permit duplexes, but not apartments. Another adjacent parcel of land was approved for annexation with the commercial zoning. Ross had applied for C-2 for a shopping center.

**Plans \$92,000 Apartments**

Ross wishes to get the R-5 classification to build apartment houses which he says will cost in the neighborhood of \$92,000 each.

The plan he said is a duplicate of one his firm is building in Canterbury Gardens, St. Louis, near homes ranging in value at \$50,000 to \$75,000.

The first units would be near to Shamrock Gardens subdivision and others added as the demand arises on property to the north along Maryville road.

**Tells Of Need**

Ross told the Press-Record consideration should be given people who need the housing and were not present to voice an opinion.

"Apartment dwellers, the very young people and the aged, are actually segregated in the downtown section of Granite City," he said.

The apartments would have their own off-street parking and would be an asset to any community. Everything we want rezoned is now vacant land that brings in little in taxes."

**Petitions Of Objectors**

Residents of the Shamrock Gardens subdivision objected to the rezoning on the grounds that their property would depreciate in value. George Carlich, of 2344 O'Hare avenue, who circulated the counterpetition estimated traffic would be tripled through the subdivision. He said the apartment dwellers would all be renters, whereas the community is composed now almost entirely of homeowners.

The 113 persons who signed the objecting petition reside on O'Hare avenue, Kilmeyer drive, Ash avenue, Erin drive, Edgewood drive and Willow avenue.

The O'Hare and Kilmeyer residents are closest to the land proposed for rezoning. Their streets end adjacent to the proposed rezoning. Since only part of the land is presently in the city and the rest is in Nantekki township, Ross wants the latter portion annexed to the city.

A subdivision in the county was approved for builder Lee Roney. It is located on Maryville road, adjacent to the Evergreen subdivision.

An application for a change in zoning to a C-2 commercial classification in the 2700 block of Madison avenue was denied. The applicant wished to construct offices on a vacant lot there.

An application for non-conforming use C-1 was approved for Frank Champion for property on Pontoon road at Franklin avenue.

Sunnylee Acres subdivision on Highway 66-67 was approved for subdivision and a subdivision in the county on Rock road near the canal was denied.

A plot containing about eight lots on Wabash avenue was approved for subdivision. The application was presented by the Bloodworth Agency.

The recommendations will be considered by the council. All final decisions on approvals and disapprovals are made by the council.

## Slight Employment Jump Here During Past Month

Employment in 61 Quad-City area industries surveyed by the Illinois State Employment Service showed a slight up-turn in May and is expected to hold about steady through June.

The local ISES office reported 15,459 persons employed by the firms surveyed last month, as compared to a total of 15,233 in March. Projected estimate for July is 15,570.

The May increase was felt in both manufacturing and non-manufacturing firms, the report shows. An increase of 140 workers was shown in the 24 manufacturing firms surveyed, while the 37 nonmanufacturing firms estimated total employment for July 1962, down from 3643 last month.

Greater gains in employment over figures for January.

The largest category of employers, the primary metal industry, showed a decrease from March. The six primary metal firms included in the study reported 9098 workers in March, dropping to 8999 last month.

A single firm producing transportation equipment reported an increase, from 1209 workers in March to 1457 in May. The same firm reported 1215 employees in January.

The ISES estimate for July shows a slight drop from the May figure in the manufacturing field, from 11,816 to 11,748. The nonmanufacturing firms' estimated total employment for July 1962, down from 3643 last month.

## Parents of Girl, 8, Catch Suspect Rabbit

Mia Susan Oburn, 8, may not undergo anti-rabies treatment after all.

The girl's father, Elmer Oburn, 3305 Dale avenue, caught the small wild rabbit Thursday night which had scratched the child's finger Wednesday evening. He dashed the animal in a neighbor's yard and finally caught it on his own property with the aid of a neighbor's fish net.

The rabbit will be placed under observation for 10 to 14 days, Mia Susan will take the treatment only if it develops abnormal symptoms.

She had been scratched Wednesday evening by a rabbit she caught in the yard of her parents' home. They made her fear it because of a small open sore on the animal's face, only to discover later that it had scratched the child.

## C. of C. Offers Medical Plan To Firms, Workers

Membership in the Tri-Cities Chamber of Commerce Blue Cross-Blue Shield group which provides medical, surgical and hospitalization benefits is one of many services provided by the Chamber to member businesses and their employees, according to C. of C. Secretary Harlan Dobry.

The local Blue Cross-Blue Shield group has been designated a "merit-rating group" because benefits to members fell within the normal range for a group of its size," he pointed out. "Dues have been guaranteed at the current rate through June 1, 1963—the fourth year in a row at this rate."

A recent evaluation of the group's record resulted in the rating of 123% of the quarterly billing—a \$1350 saving on June bills to the plan's 401 members.

The local C. of C. group offers three plans: Blue Cross hospitalization and surgical benefits on an individual or a family basis, and Blue Cross-Blue Shield plans on an individual or a family basis offering benefits on doctor bills as well as on hospitalization and surgical care.

"This service to our members is of special benefit to small business and professional members of the Chamber," Dobry said, "since many do not have enough employees to form their own groups or do not have a high enough percentage wishing to join such a group."

## 5th Annual Camping Course For Scouters

The Cahokia Mound Council held its fifth annual spring "Showando" training event at Camp Sunnen, Potosi, Mo., this weekend.

Primary purpose was to make adult scouters of the boy scout council aware of outdoor skills and Camp Sunnen equipment and facilities to be used by the leaders as they arrive with their scouts in weeks to come.

General chairman of the event was Uniwah district Training Chairman Harry Wood. Promotion Chairman was Uniwah Camp Chairman Joe Lantvo.

Aiding as instructors during Saturday's program were Dr. Leo Coleman in personal first aid, Donald Bright in signaling, Ted Scrum in woodcraft, Lester Bickel in first-class camping, and Hamilton in cooking. The last day of the course was held by Brehan in song and game leading and Harry Wood in maps and compass.

"The men camped and cooked in 'patrol style,' just as do the boys. A special campfire was held, led by Dr. Coleman.

Strange Small Craft Passes Through Canal

A great variety of craft cruised the Mississippi waterway. One of the most unusual of all went through the Chain of Rocks canal Thursday afternoon, however.

It was described by Lockmaster Roy Elliott as being a canoe about 12 feet long fitted with outriggers and an outboard motor. It was occupied by one man and was loaded for a long journey.

Elliott did not catch the man's name due to the noise of the outboard. He did determine, however, that the canoeist was traveling from Des Moines, Ia., to New Orleans, La., and was making about six miles per hour.

Two Local Teachers In Vanderbilt Institute

Robert L. Hendrickson, 2023 Edwards street, and Paul G. Bodine, 2106 Woodlawn avenue, are among 52 participants in a summer language institute for secondary school teachers of French and German which began today at Vanderbilt University, Nashville.

Supported by the National Defense Education Act, the seven-week institute is designed to increase the teaching effectiveness of the participants through instruction in new techniques in instruction and the use of new equipment and materials, and to give them greater knowledge of the area where the language is taught.

Hendrickson teaches French at Venice high school, while Bodine is a German instructor at Granite City high school.

## Participants In The C. of C. Plan, This Year Saved Over \$15,000 Over Direct Membership In Blue Cross-Blue Shield, Dobry Brought Out.

Families participating in the Blue Cross surgical and hospitalization plan pay \$78.50 annually, a \$134.52 saving over direct basis dues of \$214.08; families in the Blue Shield-Blue Cross joint plan pay \$94.44, a \$173.88 saving over direct-basis dues of \$268.32; individuals in the Blue Cross plan pay \$58.20 annually, a \$50.04 saving over direct-basis dues of \$108.24; and individuals in the joint plan pay \$87.08, a \$81.80 saving over direct basis dues of \$128.88.

Dues, payable on a quarterly basis, are handled through the local C. of C. office. The saving in bookkeeping is one reason for the local group's low rates, Dobry says.

All C. of C. members and their employees are eligible to participate in the group. Direct subscribers to Blue Cross-Blue Shield and members of other Blue Cross-Blue Shield plans may transfer into the C. of C. plan immediately. Applications from new members must be filed by Oct. 15 for coverage starting Dec. 1.

Application for membership in the C. of C. group involves only filling out a simple card, Dobry pointed out. There is no age limit, membership is non-cancelable, and participants need not take physical examinations.

No Violation Found By Building Inspector

While non-conforming to the R-3 single family unit zoning classification, the property at 2808 East 23rd street is not in violation because of development before the city zoning code was adopted. City Building Inspector Earl Bloomquist told the Press-Record on Friday.

Bloomquist said he conferred with the owner, M. G. Ryan and that records show the development to three family units was before the zoning code adoption in 1958.

The inspector added that Ryan is not planning an apartment unit in a paint store also located on the 65-632-foot premises. The store was damaged by fire last fall and is being repaired.

# GC Park District Takes Double Win At Cerro Gordo After Seco Defeats

Following a double loss to St. Louis Seco at Wilson Park Saturday night, the Granite City park district Class A softball team took a pair from the Cerro Gordo Van Horns yesterday at Cerro Gordo, Ill., 16-3 and 4-3.

Yesterday's double win helped erase the disappointment of a 4-3, thirteen-inning defeat in the second contest with Seco after the park district team had lost the opening game by a 3-1 score.

Adding to the sweetness of the Cerro Gordo victories was the fact that the Van Horns were the team which eliminated the local park squad from competition in state tournament play last season.

In the first game yesterday were Conrad Chapman and Norman Jenkins, each with three-run homers. Jerry Parnley and Jim Bain each contributed four hits. Pete Robinson drove in the winning run of the second contest in the sixth, after the locals had scored one in the fourth and twice in the fifth.

Two-hit hurling In the Saturday night action, the Granite Cityans were limited to two hits in the initial game by Seco hurler Charles Lowery, scoring their lone run in the second inning. Carroll

Glisson allowed the visitors three hits, including a double by Bob Blair. Seco scored one in the first and two in the seventh. In the free-swinging second contest, Seco collected 14 hits off three park district pitchers while the home team picked up 11 hits. Chapman had a homer and drove in two runs, and Marv Brokaw had a triple. With the score knotted at 2-2 at the end of seven, Seco went ahead with a single run in the 10th inning. The park district team came back with a run in its half of the 10th and then held the St. Louis nine scoreless until the game-winning run in the 13th.

The bride is the daughter of Mr. and Mrs. John Dawson of Glen Carbon. The double-ring ceremony was performed at 7:30 p.m. Saturday evening by the Rev. Roberson.

Large white satin bows marked the family pews, and the center aisle was softly lighted by tall standard candelabra, entwined with white ribbons. Masses of white summer flowers and greenery adorned the altar, flanked with burning tapers in branched candelabra.

Preceding the bride down the aisle were Mrs. Carol Muenzer, mother of the bride, and Miss Janet Landrus, sister of the groom, who served as bridesmaid, and a flower girl, Miss Vicki Zagorak, of East St. Louis, a cousin of the groom.

Both adult attendants wore ballroom length gowns of Dior blue chiffon over skirts of net and tulle, re-embroidered with Alençon lace at the waist. Their bodices were designed with rounded necklines trimmed with lace and tapering to a point at the back, and their skirts were very full. On their hair, they wore puffs of net and their flowers were colonial bouquets of white and blue tinted carnations. The little flower girl looked lovely in a white nylon organza dress with inserts of lace on the bodice, accented with wide blue cummerbund and tiny blue flower motifs sprinkled on the skirt. She carried a basket of blue and white petal carnations.

## Board Approves Equipment Buying, Price-Fixing Suit

Purchase of football equipment costing \$3696 was authorized Thursday night by the Granite City school board after taking two votes on the proposal. The equipment will be used by Granite City high school and junior high schools in the district.

Defeated from an earlier meeting, the bids were discussed again and Homer Huber moved that the original total of \$4160 be approved but reduced by 25%.

The second was by Secretary George Stidham, and the motion failed on a 3-2 tie vote. Ralph Buske voted favorably, and there were "No" votes by Monroe Worthen, Ralph Fricker and President Robert Spengler. Daniel Linder abstained.

### Economy Issue

Worthen said he felt there should be specific deletions, to avoid disapproval of necessary purchases. Huber stressed the importance of economy in expenditures and said this was one of the areas which savings should be possible. He added that \$4160 was spent a year ago when new football teams were being equipped.

Supt. Harold M. Kaiser said he and Athletic Director Richard Yates were suggesting elimination of game pants and jerseys, football bags and other items amounting to \$453, reducing the bid total to \$3696. Spengler noted that this year's purchase list includes rib protectors and mouth protectors recommended by the Illinois High School Association for safety of athletes.

Reporting that his initial understanding was that the equipment bids were limited to GCHE, Buske said he wished to change his vote. Worthen then moved and Buske seconded to proceed with the purchase, and the vote was 4-2, with Huber and Stidham opposing and Linder abstaining.

### Suit On Bleachers

On the suggestion of Illinois Attorney General William G. Clark, the board authorized Clark by resolution to represent the district in an anti-trust suit against manufacturers who have sold folding bleachers to Illinois schools since 1953. No report was submitted, but it was noted that bleachers at Prater junior high schools and possibly other schools are involved.

Competitive bids were obtained, with the low bid taken on the Prater bleachers, but the state contends that producers participated in price-fixing which was in a high level of bidding than was proper.

Damages are sought, and a School Attorney Walter Dailey said most school districts which have bought folding gymnasium bleachers apparently are giving

### PARTY HELD AT RHODES HOME

Mrs. Taylor was presented with her past president jewel by Mrs. Dena Smith, national senior vice-president of the DUV.

Clark the authorization he requested. There will be no charges to the districts, but there is a possibility of some expense for transportation of witnesses.

Dr. Kaiser reported that Roy Poulos has declined employment as a school custodian due to a wish to retain his present job at an industry. He had been hired at the June 12 board meeting.

Venue Township Election Dailey and Dr. Kaiser called

attention to a Venice township land commissioners' election from noon to 7 p.m. Saturday, June 30, at Harris grade school, Seventh street and Alton avenue, Madison. A caucus will be held at 11 a.m. that day to name candidates.

The land commissioners will be empowered to distribute an estimated \$30,000 now in a fund of the township school trustees system, which is going out of ex-

istence the same date.

The money will be divided among the Madison, Venice and Granite City school districts according to their average daily pupil attendance within the township.

Norm Cash set a record for a Detroit left-handed hitter when he poked 41 home runs in 1961. Charlie Maxwell, his teammate, had the former record of 31 in one season.

## Special Tour Planned For Mrs. Gantcheff

Mrs. Helen Gantcheff, 2122 Edison avenue, will visit England and France this summer in the 1952 program of "Experiment in International Living." She will depart here June 25 for New York and departure June 27 on the M. S. Australia. It will be her fifth trip to Europe.

She is a member of State University of New York-Experimental Cooperative Overseas Program for the study of literary masterpieces of Britain and France.

The Experiment in International Living is an independent, nonprofit organization in the field of international education which helps to promote international understanding by a person-to-person approach. Since its founding in 1932 by Donald B. Watt, the experiment has sent more than 14,000 Americans abroad to learn how peoples of other countries think, act and live. This year, some 1000 will travel to 31 countries on five continents. Each of these experimenters will live for a month as a member of a foreign family and will spend another month traveling about the country visited.

Experimenters travel in groups of 10 under the guidance of mature leaders specially selected and trained. Before they are admitted to the program, every effort is made to assure that the experimenters are worthy representatives of the United States.

Members receive special instruction on the language, customs, history and culture of the country they will visit. After the homestay, they travel as a group often in the company of young members of their host family. Toward the close of the program, experimenters enjoy a visit to a major city and an opportunity for a few days of independent travel.

## WHAT KIND OF A DISCOUNT?

Lately, the most used word of many advertisers seems to be "Discount." They give the impression that these firms are in business to sell things below their cost. Suddenly they have become philanthropists.

Of course you know such selling is not continuously possible. Either the price on "binder" articles of their own or unknown makes is higher, or service is discounted to a minimum. We continue our policy of dependability, fair prices and every possible service to please you.

In interpreting the new contract, officials said the principal concession is a vacation with pay, which in effect, during the expiring scale year in the form of a two cent increase in pay.

**EMPHASIS ON WINNING DENIES OPPORTUNITY TO HOME YOUNG PLAYERS**  
To the Editor:  
Building up morale and self-confidence with good sportsmanship is emphasized in boys' baseball leagues.

Our boys are being taught too much how to win, not how to lose, and are becoming poor losers. They lose confidence if not given moral support by their manager.

They should be rotated from one position to another, so they present time as players. This should not be taken out of a game merely because the manager has a player who is "hot" but it is hit to them. If never given a chance they cannot learn or improve their play.

**WORLD HISTORY VITAL SUBJECT; NEED SKILLED INSTRUCTORS**  
To the Editor:  
I have long felt the study of history has been neglected. The teacher is right; study of the past gives understanding of the present.

There is much in our country's history that is noble and fine. Great people who understood history laid the pattern to follow, to continue and improve democracy.

Students who never learn of past events can have little respect for efforts by our government to keep peace in difficult times. The Negro's role in history is largely unknown, adding to misunderstanding of today. Too little is known of American Indians.

Visitors to other countries report American history is taught much better than our own. Modern history enriches the mind and gives an appreciation of man's achievements. The subject is fascinating but must be properly taught by teachers who appreciate and understand history.

As the world grows smaller, we will be in closer contact with other countries. Coaching and teaching combined may prepare a student for the Olympics, but the great majority would benefit from learning how much alike we are to other people, despite differences in language, dress and government. Understand, we all belong to the community of man; we must live in harmony to survive.

Ignorance breeds hate, prejudice and intolerance. What an opportunity to help mold future citizens! How inadequate a

It was a distinct pleasure visiting your community on the AMVETS nationwide tour with our survival caravan, covering the message of civil defense and traffic safety.

Our efforts are directed to alert people all over the world to the need for civil defense in the form of fallout shelters and caution on the nation's highways to reduce traffic fatalities and injuries.

## Precedent For Economy In School Treasurer Decision

Economy-minded taxpayers should be pleased by the Granite City school board's decision to pay no salary to the treasurer, a position to be filled by all school boards in Madison and St. Clair counties effective next month. It is a sound precedent that could well be followed by the Madison and Venice school boards.

The new post of school district treasurer replaces the township school treasurer in each district, with the township school boards going out of existence. Full responsibility for property and funds is to be vested in the school boards; with the governmental agencies' divided authority and overlapping duties eliminated, there will be less work for the treasurer and no further duplication of effort. School districts already are doing the basic accounting work that will be required.

The law which is going into effect stipulates that the treasurer serve without pay if he is a school board member, but each board has the option of naming someone else and setting whatever salary it deems appropriate. The Granite City school directors' decision is a refreshing contrast to the actions of eight other Madison county districts, which have named non-board treasurers at yearly pay ranging from \$240 to \$2000.

Another sound decision by the Granite City board was to rotate bank deposits, reducing the likelihood of local banks becoming involved in school elections. In naming the two largest banks, board members took into account the third bank's relationship to one of the two older institutions.

In view of the Granite City board's opinion that the treasurer duties will not be laborious or time-consuming, it would seem wise for the Madison and Venice boards also to name non-salaried treasurers. This would free their board secretaries salaries, which are higher than in Granite City despite lesser workloads.

**Weather Going To The Dogs—Dog Days Of Summer**

"Dog days" are upon us, with summer due to start Thursday, and one would hardly realize it from the delightfully cool weather of last week. It may be that the usual climatic conditions have been shuffled this year, with July temperatures in May, May weather in June and almost anything possible in July.

The term of "dog days" has nothing to do with dogs, who are more likely to go "mad" or rabid at other times of the year than in the summer warmth. It can be traced to the ancient Greeks who used it to describe the 40-day summer period in which the dog star, Sirius, rose in the sky.

Sirius now rises at a different time of the year, but the terminology remains, making about as much sense as the weather here this spring.

teacher must feel when he is un-

How long will we keep from students the knowledge of our great heritage of western civilization and thought from its beginnings? Good teachers should be sought, so we do not continue denying children a sound education as world-minded Americans.

## Drainage, Zoning Essential To Avoid Economic Decline

The ghostly, unreal atmosphere which settled about the Granite City business district during the 19th street track removal project was, of course, artificially-induced and temporary. But it illustrates that a community's busy commerce cannot be taken for granted—that "business as usual" is not immune to all internal and external influences.

This thought comes to mind in relation to the challenges currently facing Quad-City areas, such as the Granite City pollution-drainage program and the proposed zoning of unincorporated areas of Madison county.

Failure to achieve either of these important programs probably would not automatically turn local cities into "ghost towns." It would be an exaggeration to predict the complete demise of the local community.

But this is little consolation, for there are many degrees of prosperity, and many degrees of poverty. There is no question that lack of zoning and failure to obtain adequate drainage would condemn the Granite City Sewer system, by drying cities, bypassed by changing times or technology. Even now, no one can build a home or apartment or store or industry requiring a connection with the Granite City Sewer system; yet extensions are banned here by order of the Illinois Sanitary Water Board.

The important point is that this area is in danger of a serious decline, as real as was the downtown "shutdown" and much more harmful to the Quad-Cities' economy and living standards. A related point, happily, is that the decline—already felt in falling construction payrolls—can be prevented if citizens and officials approve the vitally-needed programs.

Contributions are still needed to round out the budget established for the international good will venture, but the local community's response has been so generous that definite plans are being made for the three-week bus trip. At the start of the drive, there was no certainty that this would be possible.

The visit to Mexico will be a vivid, rewarding experience for the participating students and should prove of value to the school district, the Quad-City area, state and nation. Residents here and in many points of the United States will follow with great interest the young musicians' journey to and through Latin America.

**Support By Citizens Has Made Latin Ensemble's Trip To Mexico Possible**

"Splendid cooperation and support" from individuals, businesses, industries and organizations, cited by Director R. D. Toderoff, who enabled the Coolidge junior high school Latin American rhythm ensemble to accept the Mexican government's invitation for a musical and sightseeing tour this summer.

**Cruel Fate For Castro—Being Left In Office**

With some reservations, it might be said that the unkindest cut of all to Cuba's Castro has been the U. S. failure to drive him off the nearby Caribbean island. Left to his own and the Communists' devices, he is suffering a cruel fate—continued authority to remain. It is even more cruel to the Cuban populace.

With no one to blame but himself and his Red friends, the bearded prime minister is reaping the harvest of unsound policies and an accompanying reign of terror. There are food shortages, galloping inflation, rationing and deterioration of the peso's value. Ancient American autos are selling for \$6000, and our ounces of meat for \$6.

If the event in Cuba have served any useful purpose, it has been their clear demonstration that dictatorial government is not efficient, regardless of any theoretical advantages, and that bludgeoning of private enterprise leads to chaos.

**For Safe Motor Trip Follow These Rules**

1. Good living habits—plenty of sleep and rest, a good frame of mind with no worries while driving.
2. Break up monotony—stop for coffee or gas, at regular intervals, get out and walk around. Never go more than two hours or 150 miles without a stop. This keeps you fresh, alert and at your driving peak.
3. Think your Daily Driving—ten hours of driving per day is the limit. After that you are asking for trouble.
4. Be maintenance—It's a must to keep your car in top mechanical condition.
5. Drive a day-Car Look articles, litter, pick-ups, etc., can be dangerous. Keep the inside of your car neat and tidy, everything packed in convenient places where loose items can't be thrown around. Packages piled on the rear window ledge become missiles in case of a collision, and they also block the view of the driver behind you.
6. Follow road conditions—It's the sign says 40 m.p.h., believe it. If it says, "Slow, dangerous curve," take the big slow down. The signs are placed along the road for your help, and they have a good reason for being there. Drink and drive are poor visibility driving times. (Use extra care when driving.)

## THE PASTOR SPEAKS

REV. SAMUEL BOWMA  
St. John Lutheran Church

To build or not to build a fallout shelter?  
This is a question each of us will have to decide for himself after weighing as many facts as are available on the matter—technical data as well as the truths of Holy Scriptures.

For those who have shelters as well as for those who do not, it is important that the shelter itself is the need to rely, first of all, not on the shelter, but on the hands that build it. The Lord God Himself, who offers Himself to us as the only reliable, fully safe shelter.

Our heavenly Father, the True God (Father, Son, and Holy Spirit), is far more concerned about our spiritual and physical welfare than we might realize.

After paying an enormous price for our redemption from the powers of sin, death, the devil and hell through the sacrifice of His son on the cross, our Lord does not intend to ignore the needs of His people. To those who anchor their trust fully in Him as Savior from sin, He promises to meet our every true need.

**Scripture Verses**  
"If God be for us, who can be against us? He that spared not His own son, but delivered Him up for us all, how shall He not with Him also freely give us all things?" Romans 8:32-34.

"My Father shall supply all your need according to His riches in glory by Christ Jesus." Philippians 4:19.

**Local SIU Campus Degrees To 22 Quad-City Students**

Twenty-two students from the Quad-Cities were among 218 receiving degrees in third annual commencement exercises at the Edwardsville campus of Southern Illinois University Thursday night.

The speaker was John Schwada, dean of faculties at the University of Missouri. Dean Schwada cautioned the graduates that with today's rapid accumulation of knowledge, specific training may well be obsolete.

"He said they may find it necessary to turn again to the university for intellectual refreshment," he added that faculties of schools throughout the nation are consistently improving in quality.

Special milk program reimbursements for April included: Granite City, \$4,119; Sacred Heart of Granite City, \$224; St. Elizabeth of Granite City, \$221; Madison, \$129; Venice, \$221.

**GC Student In Lead Of EU Student Stock**  
Mike Genovese of Granite City, a student at Eastern Illinois University, Charleston, will take a lead role in George Bernard Shaw's play "Arms and the Man" to be presented by EU Fine Arts theatre June 20-23.

He will play the part of Sergeant Bluntschli, according to Director E. Glendon Hibbard. Genovese is a member of "Company 22," a group of 24 students enrolled in the summer drama workshop.

**Auto-Taxi Accident**  
An auto-taxi was issued Thursday afternoon to Larry Wofford, 17, of 2323 Sheridan street, following too closely. His auto struck a taxi driven by Van L. Struck, 55, of 1704 Cleveland street. The taxi was attempting to make a right turn on Madison avenue near 19th street when the accident occurred. Wofford posted \$11 to cash bail.

**Two Hurt Slightly While Wrestling At Tavern**  
Arrested for allegedly wrestling at the Cardinal tavern, 1413 Second street, at 11:10 a.m. Friday, Lyle George Porter, 23, of 901 Reynolds college, and Charles Wickham, 25, of 2671 East 23rd street were charged by Madison police with creating a disturbance.

During the wrestling, Porter was hand and arm, and Wickham had a lip cut and a torn shirt. There was blood on the floor, and the two men's faces and hands. Each was released until a hearing next Saturday.
